WORK EXPERIENCE

NxtWave Disruptive Technologies Private Limited(SDE-I)

Sep 2022 - Mar 2024

Hyderabad, Telangana, India

Responsible for the Development of REST APIs and feature additions to existing API contracts as per business requirements, Resolve unknown issues and bugs in server-side code. Test the feature before going to live. Participated in code reviews and Sprint discussions.

University College of Science, Saifabad, Hyderabad

2019 - 2022

MCA (Master of Computer Application) (7.6 CGPA)

Naveena Degree College, Khammam

2015 - 2018

B.Sc (Bachelor of Science)_Mathematics, Physics, Computers (MPCS) (73.69%)

Madeena CO-OP Junior College, Khammam

2013 - 2015

Intermediate_MPC (90.1%)

Z.P.S.S. Kannegundla, Dornakal

2012 - 2013

Secondary School Of Certificate (7.0 CGPA)

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React, NextJs

Backend: Python, Django, Node.js

Databases: SQLite

Testing: Unit Testing, Integration Testing

PROJECTS

AI Mock Interview Application

Developed a comprehensive AI-powered mock interview platform to enable personalized interview practice and feedback for users. The application delivers dynamic, data-driven interview sessions and provides targeted feedback.

- **Dynamic Interview Flow:** Integrated AI services to generate context-aware questions based on user responses, creating an interactive interview experience that adapts to performance.
- **Data-Driven Feedback:** Implemented AI analysis to offer comprehensive feedback and actionable improvement suggestions, enhancing the user's interview skills over time.
- **Backend Mastery:** Built robust REST APIs with Python and Django to manage user interviews, track progress, and ensure the secure handling of interview data. Leveraged Django queries to manage data efficiently, enabling real-time feedback.
- **React Frontend:** Developed a responsive frontend with React, enhancing the user experience by enabling smooth navigation, interview progress tracking, and feedback display in a user-friendly interface.

Technologies used: Python, Django, REST APIs, AI Services, React, HTML, CSS

Personal Expense Tracker ([Source Code](#)):

Developed a RESTful API for managing personal financial records, enabling users to track income, expenses, and generate summaries.

- **Transaction Management:** Created endpoints to add, update, delete, and retrieve individual transactions for both income and expenses.
- **Summary Reports:** Designed a summary endpoint to calculate total income, expenses, and balance, with filters by date range or category.
- **Data Validation & Error Handling:** Implemented comprehensive validation for user inputs and error handling for issues like invalid transaction IDs or inputs.
- **User Authentication:** Added secure authentication features to associate transactions with specific users, protecting all endpoints.
- **Detailed Documentation:** Provided complete API documentation in a [README.md](#) file, including setup instructions, endpoint details, and Postman screenshots.

Technologies used: Node.js, Express.js, SQLite, Sequelize ORM, REST APIs

Nxt Trendz (ECommerce Clone - Amazon, Flipkart) ([nxttrenzshopping.ccbp.tech](#)):

Created a modern e-commerce experience with a design inspired by Amazon and Flipkart.

- Implemented pages for Login, Products, and Product details with React Router, React components, and form inputs.
- Secured user data with JWT tokens, REST API calls, and local storage. Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication
